# Robert L. Bates Memorial Scholarship

[www.FGIMinc.com](http://www.FGIMinc.com)

The Forum is an international meeting of geologists and mining professionals interested in industrial minerals. Topics for this year's Forum include all aspects of industrial minerals, with emphasis on the industrial mineral extractive industries and geology. The Forum will consist of technical sessions including pre and post conference field trips to industrial mineral sites.

The **Forum on the Geology of Industrial Minerals (FGIM, Inc.)** has established the **Robert L. Bates Memorial Scholarship Fund (RLBMSF)** to encourage students to enter the field of Industrial Minerals. The scholarship will completely fund a student to attend the annual meeting and field trips.

Nominated Students in Earth Sciences with:

- Undergraduate Junior standing through Graduate student level.
- A strong inclination towards industrial minerals.
- A Nominator, who is asked to fill out the attached form detailing their assessment of the student. \*An advisor or a professional in the field of industrial minerals are good choices for nominators.\*
- A detailed letter describing his/her background and professional goals sent to the Bates Scholarship Committee.

Forum participation with a poster presentation is welcome, but not required for nomination. Your paper, if accepted, will be published in Forum Proceedings.

The 2019 Bates Scholar will be selected by the Forum Steering Committee from among the candidates nominated. The Scholarship is 100% funded, including travel expenses. Letters of application and questions should go to:

*Robert L. Bates Memorial Scholarship Awards Committee  
c/o Tom Newman - 1405 Parkwood Drive, Fort Collins, Colorado 80525 USA
